Create Master Barcode List

Create Barcode For Selected Item

- The Master Barcode form:
 - Accesses the Create Master Barcode list form
 - Accesses the Create Barcode for Selected Item form.
- Materials within the system are accessed by category, then by Material Number.
- Barcode display changes as the barcode selection changes.

The Barcode List report:

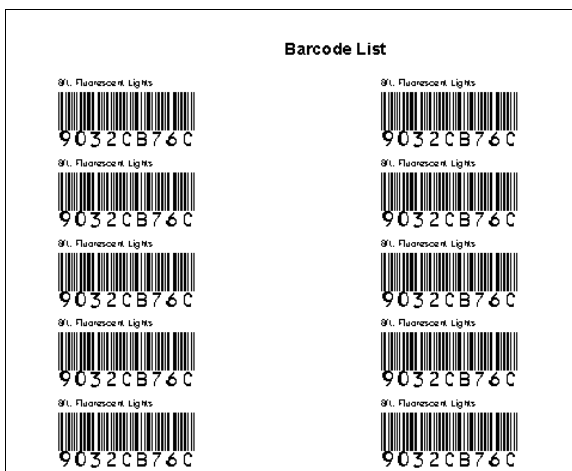

- Contains a listing of all the materials within the UA System
- Select the items to be printed on the Master Barcode List
- Access and print Master Barcode List report

Print List

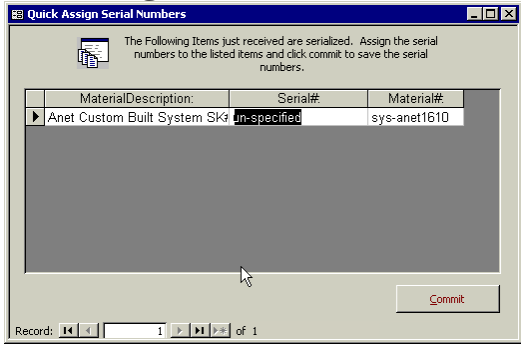

Record: 1 of 1

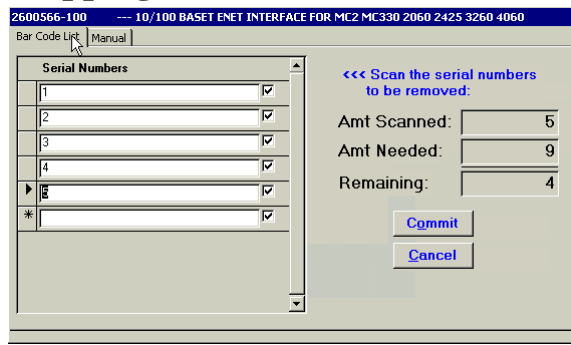

The Barcode List report, accessed through the Master Barcode form, is used to print barcode labels for the selected barcode number. The report:

- Selects by category barcode
- Easily accessible
- Prints as many labels as needed

Serialized Components Receiving

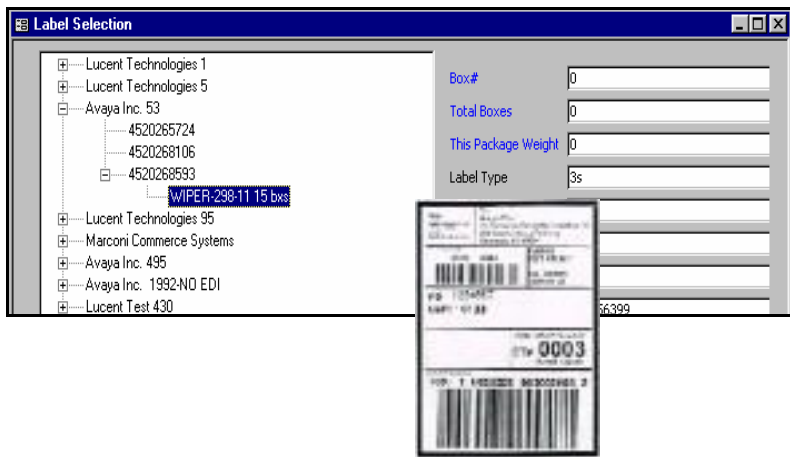

Shipping

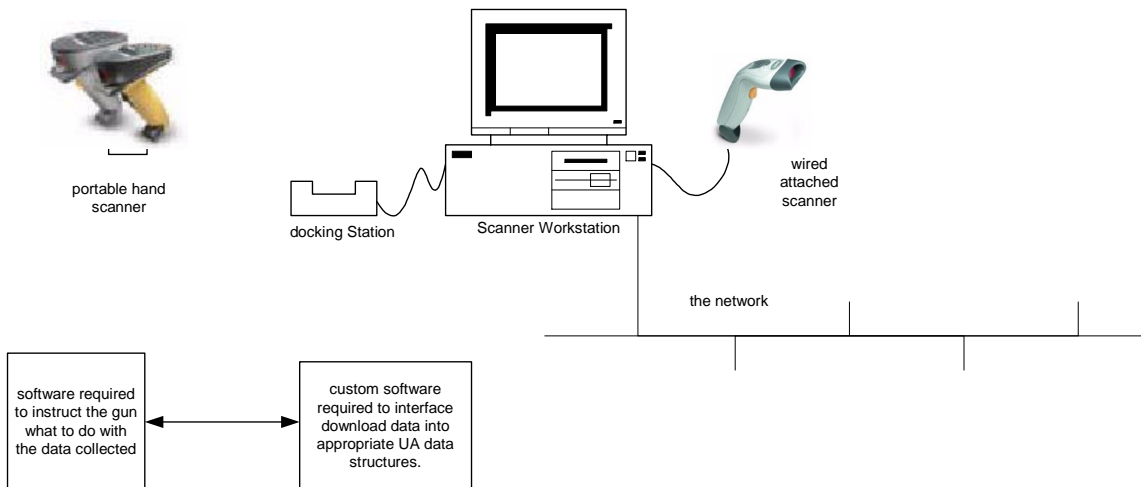

Barcode Shipping Labels

Bar Code Shipping Label Interface

Optional Barcode shipping interface:

- Allows assignment of goods to packages
- Releases goods from inventory
- Produces the required shipping labels
- Optional Integration with Advantec EDI Module.
