

Agricultural Farm & Distribution

Problem

A company specializing in growing and distribution of vegetables had outgrown their “shrink wrapped” accounting package. The firm needed to maintain books for three different businesses, farming, distribution and trucking.

One year after implementation they needed to add EDI capabilities with their grocery chain trading partners.

Solution

AdvanTec implemented

- UA Corporate Accounting – Professional — 5 users
 - With customizations for bill of lading
- Data migration—consolidating the data from the legacy package into UA
- AdvanTec EDI Module

Benefits

- Reduced paperwork
- Direct EDI order/invoice processing (880/875)
- Inventory tracking and management
- Enhanced reporting capabilities
- Streamlined operations
